

Features

- Strobe Blue Spot light TV-BS124FLASH are used for forklift safety solutions.
- Bright enough with original Cree leds chip.
- 1.5 times brighter than normal blue spot
- 0.7 times smaller size than normal blue spot
- Easy noticed by flash pattern
- Good heat dissipation, Housing material is 100% Diecast Aluminum Housing with enough thickness.
- Great light pattern by using optical principle of science.
- Long using life with more than 50000 hours.
- Great out looking with easy installing.

Proportion

Specification

Model No.	TV-BS124FLASH
Led Chip	Cree
LED power	4*5w 20W
Voltage range	10-110V DC
Lumen	850LM
Beam	Red/Blue spot flash
Size	82*80*80 mm
Waterproof rate	IP67
LED lifetime	50000 hours
Housing Material	100%Diecast Aluminum
Lens	PC
Operating temperature	-45 ~85° C
